The Crucial Question

If there were no hospitals in Switzerland yet and we could plan a hospital system from scratch, what would it look like?

This is the topic of discussion between Dr Diego De Lorenzi, Chief Physician at the Clinic for General, Visceral, Endocrine and Transplant Surgery at Grabs Hospital, and PD Dr Walter Brunner, Senior Physician in Colorectal Surgery at St. Gallen Cantonal Hospital.

The discussion was moderated by Dr Moritz Sparn, member of the editorial board of Swiss Knife.
